Exam 4

gzahn

April 9, 2019

This is Exam 4

You can do this on your own time, at home, if you prefer.

The instructions are simple:

- Pick an exam to re-do
- Re-do that exam
- Push that exam to GitHub under the *Exam_4* directory (i.e., don't overwrite the exam you are re-doing)
- That is all

Note: The grade you earn on your re-do will also be earned for Exam 4.

So, if you bring your Exam 1 score up to 100, you will also get 100 on Exam 4
